

IGEM 3500

ELECTROMAGNETIC LOCK - Q MAG MAGNET

Mega-LED:

This exclusive and patented electromagnet is part of the new generation equipped with a "long - range" Mega-LED".

Security, Quality and Design:

- The iGEM 3000N series is part of the original and exclusive electromagnet locking for the professionals of the security.

- Security, safety and design without compromising the use of high quality materials, ensuring maximum strength without any residual magnetism or corrosion.

FEATURES

- Strong design, High-end finish
- Corrosion proof: Salt Spray Test (ISO 9227, ASTM B 117-90) at 35% for 96 hours
- No residual magnetism – Spring push button (repulsor) not useless on armature plate for magnet release
- Built-in MOV surge protection
- 10 years warranty

BRACKETS

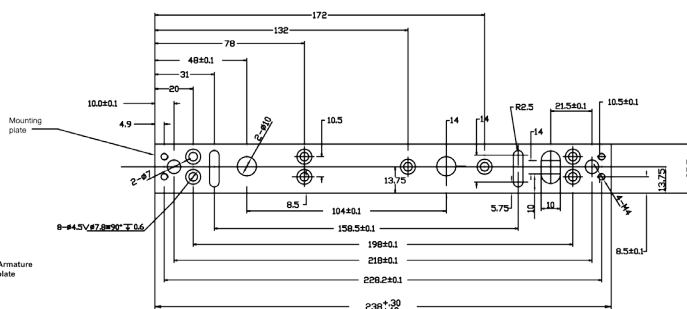

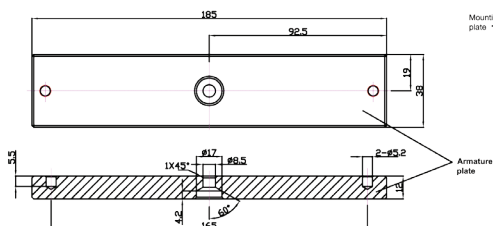

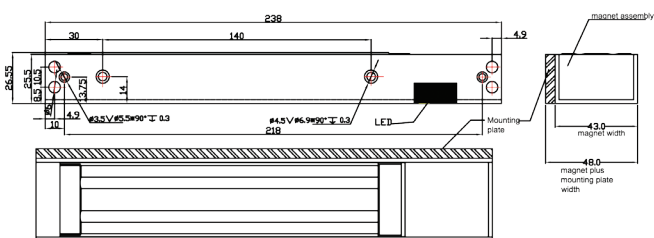

AMLB 4

AMZB 4-LP

Type	L Bracket	Z + L Set Bracket
Material	Extruded Aluminium anodised surface	

DIMENSIONS

SPECIFICATIONS

- Mounting: Surface
- Holding force real tested* (+/-10%): ~2430 N / ~ 545 lbf / ~243 kgf
- Voltage: 12/24 V DC
- Current: 500/250 mA
- Locking monitoring: Large L shaped LED for a visible status to long distance + Relay
- Size: 238 x 48 x 26 mm
- Weight: ~2 kg
- Operating temperature: -40°C to +60°C

* According to tests of range done in independent laboratory.
