

ASW367

Conventional Wall Mount VAD, Multi Tone, Deep Base - Red Flash

General

The ASW367 is a RED, general purpose, wall mount, electronic sounder and beacon for fire alarm applications. It features a special base containing all wiring connections allowing for easy placement or removal of the device. With an EN54-23 approved coverage pattern of W-2.4-7.5 for the beacon, each ASW367 may be mounted up to 2.4m high and cover a square room of $7.5 \times 7.5 \,\mathrm{m}$ with a single device.

Easy and Fast Installation

The ASx360 series alarm sounder/beacons allow faster installation and maintenance thanks to an innovative mounting base. Dispensing with the need for locking screws these devices use TimeSaver™ bases from the 630 series detector lines. Heads are simply locked onto the base with a "twist and click" action, allowing fitting or removal at any time because the base is the only component that needs to be wired. As the cabling requirement is reduced, commissioning time and costs are naturally reduced as well.

Efficient and versatile

The ASx360 series sounders provide high sound output at a low current, thus reducing power requirements and system cost. They are supplied with a volume control as standard, allowing final audio adjustments to be made during installation. With a choice of 32 different tones (see tones table in manual), which are switch selectable, the required tone can be selected during installation.

The ASx360 series beacons utilise a specially designed lens giving a uniformed light output over the specified coverage area.

The mechanism for locking the device to the base may be activated if required. Once activated, a special tool is required to remove the sounder from the base.

Details

- High sound output with Pulse Alert[™] technology
- 32 Tones user selectable
- Automatic syncronisation
- Volume control and adjustable flash rate
- Anti-Tamper locking mechanism
- Deep mouting base with side cable entry and wiring to the base
- Weatherproof
- Seperate sounder and beacon and control
- EN54:3 and EN54:23 approved, CPR Certified

ASW367

Conventional Wall Mount VAD, Multi Tone, Deep Base - Red Flash

Technical specifications

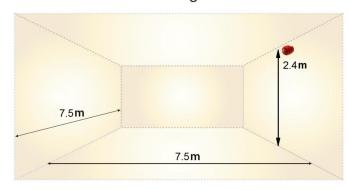

General		
Compatibility	All conventional notification circuits	
Line monitoring	Polarised input	
Electrical		
Power supply type	VDC	
Operating voltage	17 to 60 VDC	
Current consumption	5.1 mA (sounder) 20 mA @ 0.5 Hz (VAD)	
Operation	Continuous	
Sounder		
Output level	85 to 97dB(A) @ 1 m (tone dependant)	
Selectable tones	32	
Synchronization	Phased start	
VAD		
Colour	Red	
Rating	W-2.4-7.5	
Floor coverage	56.25 m²	
Flash frequency	0.5 Hz	
Synchronization	Supported	
Physical		
Physical dimensions	97.5 x 117 mm (Ø x D)	
Net weight	215 g	
Colour	Red	
Mounting type	Base mount, Wall mount	
Mounting position	g position Wall	
Mounting base	ing base Deep	
Material	l High impact polycarbonate	
Texture	Smooth	
Environmental		
Vandal proof	No	
Operating temperature	-25 to +70°C	
Relative humidity	5 to 95% noncondensing	
Environment	Indoor, Outdoor	
IP rating	IP65	
Regulatory		
Compliancy	CE, REACH, RoHS 3, WEEE	
Certification	CPR	

EN54-3; EN54-23

Compatible products

Category	Reference	Description
